Apotex Care Companion

Developed by **Ultra-Pharm Marketing Limited**, the exclusive distributor of **Apotex** in Trinidad & Tobago, **Apotex Care Companion** is a patient support platform designed to help remove barriers to treatment and improve access to quality healthcare.

We believe that patients shouldn't have to choose between quality, trust and affordability. Through Care Companion, we're working alongside healthcare professionals and pharmacy partners to make trusted medications more accessible—because better access leads to better health outcomes.

Our first initiative is the **Apotex Care Companion Patient Savings Program,** which provides instant savings on selected Apotex medications through participating physicians and pharmacies across Trinidad & Tobago. This is only the beginning. As the platform grows, Care Companion will continue to evolve with new resources, educational content and patient support initiatives that strengthen every part of the healthcare journey.

How the Patient Savings Program Works

1

GET YOUR COUPON

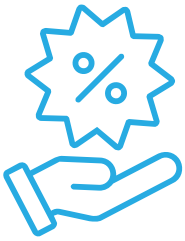
Your doctor or healthcare professional will provide you with an Apotex Care Companion coupon for eligible medications.

2

VISIT A PARTICIPATING PHARMACY

Take your coupons to any participating pharmacy partner and present it at the time of purchase.

3



RECEIVE INSTANT SAVINGS

Enjoy immediate savings on your eligible Apotex medications and stay on track with your treatment.

Our Promise: Healthcare Without Compromise

Healthcare Without Compromise is our commitment to helping more patients access the treatment they need. It is the philosophy that guides everything we do.

It's our belief that every patient deserves access to quality medicines and the opportunity to achieve better health outcomes—without unnecessary barriers standing in the way.

Whether those barriers are affordability, awareness or access, meaningful progress happens when every part of the healthcare ecosystem works together.

That's why we're partnering with doctors, pharmacists and healthcare providers across Trinidad & Tobago to help make quality healthcare more accessible for the patients who depend on it.

Partnering for Better Health

Apotex Care Companion is more than a patient savings program—it's a long-term commitment to improving access to quality healthcare in Trinidad & Tobago.

As the platform evolves, we'll continue working alongside patients, physicians, pharmacists and our healthcare partners to develop new initiatives that help remove barriers to care and improve health outcomes.

Whether you have questions, need support or would simply like to share your feedback, we'd love to hear from you.
